

Class A = Rivers and streams with documented presence of a species listed as threatened or endangered by a State or Federal agency.

Class B = Rivers and streams not included in Class A that include either: Areas with documented presence of species listed as sensitive by a State or Federal agency; or Areas that provide habitat for anadromous or resident fish populations; or Areas planted with game fish by a governmental or tribal entity.

Class C = Non-fish-bearing rivers and streams not included in Class A or B.

Upland Wildlife Habitat = Upland areas with which threatened, endangered, or sensitive species have a primary association. (No regulated UWH areas were found. Several non-regulated UWH areas were identified.)

— Ditches and Streams

▨ SMP Jurisdiction

▭ Lynden City Limits

▭ Lynden UGA

▭ Nooksack River

Shoreline jurisdiction boundaries depicted on this map are approximate. They have not been formally delineated or surveyed and are intended for planning purposes only. Additional site-specific evaluation may be needed to confirm/verify information shown on this map.

All data are approximate and should be used for relative location reference only.
HCA data obtained from 2002 City of Lynden Inventory of Critical Areas report and GIS.
