Water Quality Program - Strategic Plan

Vision

Working with engaged citizens and partners, we restore and maintain the integrity of Washington's waters by preventing and eliminating water pollution.

Mission

To protect and restore Washington's waters to sustain healthy watersheds and communities. Our work ensures that state waters support beneficial uses including recreational and business activities, supplies for clean drinking water, and the protection of fish, shellfish, wildlife, and public health.

Values

We value our staff and their commitment to public service. We aspire to develop a culture and program that has high levels of respect, innovation, excellence, teamwork, ownership and inclusion.

Goals

1. Prevent & reduce water pollution.

2. Clean up polluted waters & engage citizens in the work to protect and restore water quality.

3. Provide excellent technical & financial assistance.

4. Develop, recruit and retain highly qualified and committed staff.
