To Whom It May Concern:

We appreciate the opportunity to comment on Ecology's proposed modifications to the Phase Two Eastern Washington Municipal Stormwater General Permit.

**GENERAL COMMENTS:**  
None.

**SPECIFIC COMMENTS:**  
Re: Section S4.F – Compliance with Standards: I understand Ecology was ordered by the Pollution Control Hearings Board to use the modified language in this Section, including references to AKART in the adaptive management process. The City requests Ecology prepare and provide guidance concerning AKART in the context of this Permit.
